CAREER OBJECTIVE

I am a passionate and fast-learning Web Developer with a strong commitment to hard work and efficiency. I always like to learn new technology and have experience with new thing. I am to contribute to a dynamic organization where I can apply my knowledge, grow professionally, and deliver high-quality results.

SKILLS

Experts: HTML5, Tailwind CSS, JavaScript, TypeScript, React, Next.js, Node.js, Express, PostgreSQL, Prisma.

Comfortable: Rest API, Context API, Firebase Authentication.

Familiar: Redux, Zustand.

Libraries/UI: React awesome components, Daisy UI, Headless UI.

Tools: VS Code, Git, GitHub, Netlify, Vercel, Figma.

Others: Microsoft Word, PowerPoint, Excel.

PROJECTS

The Dragon News Hub- A Modern News Web Application. [Live link](#) | [GitHub link](#)

Technologies: React.js, React router, Context API, Firebase Authentication, Tailwind CSS & Daisy UI.

- Developed a responsive news portal with category-based filtering and dynamic content rendering.
- Implemented protected routes with authentication (Email/Password, Google, GitHub) using Firebase.
- Built a dynamic news details page with conditional navigation (redirect to login if unauthenticated).
- Integrated real-time UI features like live date display and latest news marquee.

Hero IO – App House: [Live link](#) | [GitHub link](#)

Technologies: React.js, React Router, JavaScript (ES6+), Axios, Local Storage, Tailwind CSS & Daisy UI, Netlify.

- Developed a responsive web application to browse trending and all apps with a clean card-based UI.
- Implemented dynamic routing to display individual app details pages with full information.
- Integrated an app installation system using Local Storage with real-time UI updates.
- Built an installation management page allowing users to view and uninstall apps with persistent data handling.

DevPulse Issue Tracker API: A RESTful Issue Tracking for Developers team. [Live link](#) | [GitHub link](#)

Technologies: TypeScript, Node.js, Express, PostgreSQL, JWT, bcryptjs.

- Built a role-based issue tracking system for managing bugs and feature requests.
- Implemented issue creation, status tracking, updating, and deletion workflows.
- Added secure user authentication and protected access to project resources.

EDUCATION

Diploma in Computer Science & Technology (Munshiganj Polytechnic Institute).

Passing Year: 2024

COURSES

Programming Hero (Complete web development)
